

Making Scripture Attractive

The Inakeanon People of the Philippines are seeing God's Word in colorful attractive posters, bookmarks, key chains, greeting cards and more. The Inakeanon Scripture Promotion team has produced over 1,250 Scripture posters as well as hundreds of the other Scripture items. These were hand made, scrapbook style from used greeting cards, stickers and punched-out shapes sent from interested prayer partners.

Betty Green, the initiator of the project, shares:

We are trying to make whatever we can to get the Inakeanon Scripture into the hands of the people so they can see what a difference it makes when it is in their own language. We make posters, bookmarks - laminated and non-laminated, bookmark kits for groups to make their own bookmarks, refrigerator magnets, note pads, stickers, etc. and are always trying out more ideas. We are so grateful to everyone who contributed their used greeting

cards to this project. We use almost every square inch for either decorating the bookmarks and posters or for making the backs for the bookmarks.

We have just come up with some new ideas using old calendars that people gave us. We are also looking at making small coloring books with short verses for preschoolers and coloring cards for older children. We have started on cushions with verses printed on the front and are looking for someone who will be willing to cut the fabric and sew the cushion covers. We are expecting that the demand will mean I won't be able to keep up myself. New notepads are being printed and key chains with verses on each side are being produced. We are so excited about how the Lord is using these simple methods of spreading the Gospel.

Do you know any local people who might enjoy an opportunity to make Scripture artwork like this? Go for it!
